Billing

How do I upgrade my storage plan?

If you have outgrown your current storage plan, upgrading is simple. Just click the 'Upgrade' button in the side panel of your account, then select your new plan—it's as easy as that. Your payment method on file will be automatically charged any price difference if you upgrade during your billing cycle, with the cost prorated for the remainder of the month. If you prefer to avoid proration, you can upgrade your plan on your billing date.
